Meeting Report of CEN/TC 98/WG 3 „Vehicle Lifts“ on 21/22 June 2016 in Bologna

List of Participants: see doc. no. **N0029**

ITEM 1 Opening of the meeting and welcome of the delegates

The Convenor Mr Trabold welcomes the delegates and opens the meeting.

ITEM 2 Introduction of the delegates

Since there are some new participants a roll call of the delegates is performed.

ITEM 3 Adoption of the agenda (doc. no. N0017)

The draft agenda is unanimously adopted without any modification.

ITEM 4 Adoption of the minutes of the meeting in Mannheim 2016-03-13+14 (doc. N0010)

The minutes of the meeting in Mannheim are adopted without any modification.

ITEM 5 Discussion of the existing comments (doc. no. N0007) to EN 1493:2010 (doc. no. N0006)

The comments included in doc N0007, except the comments of the notified bodies, are discussed.

The results are documented in doc **N0021** which also contains the new Spanish comments. These are comments to already existing comments and have been inserted directly below them.

The changes in the draft standard according to the results of the meeting are contained in doc **N0027**. This document also includes the proposal of Mr. Manganelli made in doc N0008, which shall be finally discussed in the next meeting.

To comment 29a

The manufacturers are asked to check for reachable values.

To comment 31a

Mr Fijnvandraat will provide the WG with a table containing a comparison of the American standard and EN 1493 until end of September, to be distributed immediately in the WG.

Mr Manganelli will organize in the EGEA WG1 a group for reviewing load distributions of normative vehicles. Furthermore all members of TC98/WG3 are asked to give data of their experience.

To comment 44

Mr. Garratt and Mr Manganelli will prepare wording for testing procedure of arm locking devices.

To comment 48

In the new Table 4 a column with maximum wheel diameters shall be introduced.

To comment 59

Proposed definition (Mr. Garratt): A competent body is an organisation that has the knowledge and the skill to conduct the work or examination.

To comment 60

Proposals for new points in the user manuals will be prepared by the French delegation.

To Annex F

Mr. Greupner reports that he was in the German institute IFA to discuss Annex F of EN 1493 in comparison to the requirement on remote controls for cranes. The result was that both requirements are on the same safety level.

During the discussion in the WG the following question arises:

The headline of Annex F reads "Additional requirements for cableless controls and control systems". The question is, whether this Annex is also valid for e.g. bluetooth data transfer between the columns of a mobile column lift.

Mr. Trabold will clarify this with the IFA, maybe that the headline of Annex F then will be changed.

ITEM 6 Date and place of the next meeting

The next meeting will be held on 2nd and 3rd November 2016 in Mannheim.

CEN/TC 98/WG 3

Convenor
Rolf Trabold
