OECD Portal Category	77000000 - Automotive
Description	2500 Kgs twin cylinder mid-rise scissor lift
Country of origin	China
Alert submitted by	United Kingdom
Risk type	Injuries
Risk	There is no locking system for the support arms and the safety latch system does not automatically engage. When lowering, the down lever could be operated. Furthermore, there are unprotected hoses, therefore any sudden loss of hydraulic pressure will lead to a very rapid descent of vehicle lift. All this could lead to persons near the lift being crushed by the lift and any vehicle it is supporting. The product does not comply with the requirements of the Machinery Directive.
Measures adopted by notifying country	Measures taken by economic operators: Withdrawal of the product from the market (By: Distributor)
