

EGEA – GA 2012

Round up

WG 6 Brake/Suspension testers

Frank Beaujean
Barcelona
14.03.2011

WG 6 Activities: Meetings

No WG6 Meeting since 13.10.2011 Paris

Chairman WG 6 switched company
(ASA-reelection 19.03.2012)

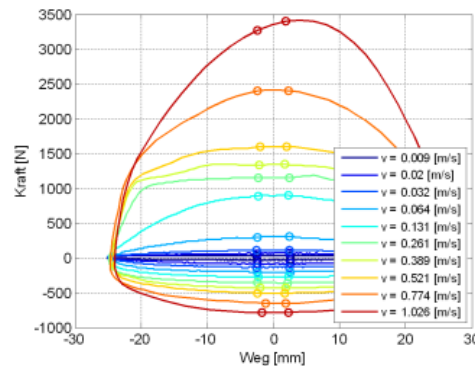

Plan: WG6 Meeting April/May 2012

WG 6 Activities: Efficiency tests on suspension

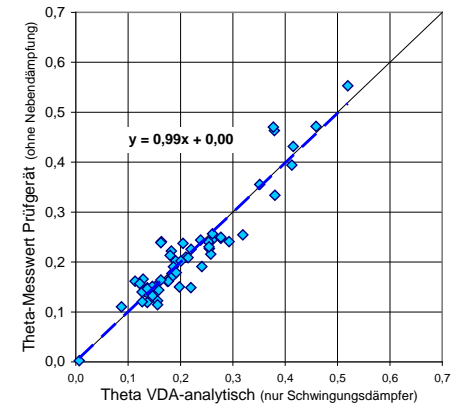

13.03.2012 Technical visit at IDIADA (Spain)

Definition of a type approval proposal for suspension testers

From
damper
characteristics

... to proof
corelation

WG 6 Activities: Efficiency tests on suspension

No feedback on facts and figures to justify suspension testing

- Next steps:
- a) Positive feedback from IDIADA
 - b) Get in touch with GOCA / EU – commission
 - c) Validation of the proposal at IDIADA laboratories (Funding by EGEA)

WG 6 Activities: 2008/764/EU „Mutual Recognition“

WG6 got an better understanding about „mutual recognition“.

Support to the EGEA office to prepare a letter to Mr. Salazar.

No activities to implement an ISO for car brake testers
(similar to ISO 21069)

WG 6 Activities: Safety on roller brake testers

Input: GIEG (France)

No feedback from questionnaire about existing national regulations.

But: On manufacturer level there are contacts directly within GIEG
Approach: Contactless safety installations (Light curtains)

Threat: Interpretation of the EC – directive
Retrofitting all existing roller brake testers in the field on the costs of the manufacturers.
